I am a 60 year old lady who moved to a new State within the last year — and will only depend on having UBER. They are the only ones that I trust. Come on.....

Dear PSC,

I am writing this email, adding to my request to reconsider Banning Uber.

Please call a cab in Charleston and see how long it takes for them to respond, that's if you get through on the phone. Try it in the middle of the day, and then try it on a weekend. You will end up waiting 45 minutes or more, often they don't even pick you up! They just forget about you. I know people drink and drive because they do not have reliable alternatives. Uber is that reliable alternative, South Carolina taxis are not organized enough to serve the growing population. Uber saves lives by keeping drunk drivers off the road. The cabs cannot do this because they cannot match their service.

Thank you for your time.

Respectfully,  
Thomas Carr

Uber is one of the but transportation services in America right now. It is reasonably priced for how quick and precise their service I will be very disappointed if this service is cut off for use in South Carolina. Keep South Carolina safe=keep uber
